#### Election/Restrictions

1. Applicant's election without traverse of Specie 2, figures 43 and 44, claims 1-11 and 18-22, on 05/03/2004 are acknowledged. Claims 12-17 and 23-25 have been withdrawn from further consideration.

## Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-4 and 18-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Clark et al. (U.S. Patent 5,266,075).

Clarke disclosed a tendon (17) having first and second ends with a first longitudinal axis and third and fourth ends with a second longitudinal axis as is claimed (figure 7, column 5 lines 53-56 and column 6 lines 1-14).

## Allowable Subject Matter

4. Claims 5-11 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
